

## ERASMUS+STUDY INCOMING STUDENTS @SCHOOL OF PSYCHOLOGY: HOW TO CHOOSE COURSES

- 1) Browse our course catalogue:  
<http://didattica.unipd.it/off/2018/LT/PS> (in Italian)  
<http://en.didattica.unipd.it/off/2018/LT/PS> (in English)
- 2) Erasmus Incoming students are free to choose course units from 1<sup>st</sup> and 2<sup>nd</sup> cycle degrees (=Bachelor and Master) of the School of Psychology. If you're a Bachelor student and you're interested in some of our Master modules just read the syllabus in order to check if you've got the right prerequisites in order to take them
- 3) There are two international degree courses whose course units are entirely held in English: *Psychological Science* (=BPS) and *Cognitive Neuroscience and Clinical Neuropsychology* (=CN2). Furthermore we offer 18 course units held in English in our Italian taught 2<sup>nd</sup> cycle degrees. Just pay attention to courses belonging to the 1<sup>st</sup> cycle degree *Psychological Science* 2<sup>nd</sup> cycle degree *Cognitive Neuroscience and Clinical Neuropsychology*: Erasmus Incoming students need to ask for the authorization to attend the module(s) of interest directly to the professor(s) by writing him/her/them an e-mail. Usually all Incoming students are allowed to take these modules but as they are very selective Degree courses, professors should know how many extra students they have to deal with. Here the quick link to course units held in English <http://didattica.unipd.it/catalogues/2017/PS>
- 4) You're allowed to take modules from our on-line Bachelor. We'll explain you how to sign up to this modules during the Welcome Meeting of the School.
- 5) Timetables won't clash If you choose courses from the same year of the same degree course

- 6) You're not allowed to choose 2, 3 and 5 CFU (=ECTS credits) course units held at the School of Psychology
- 7) If you choose a 12 CFU corso integrato (=integrated course) it is compulsory to take both modules. You can't "split" the course and take only one module.

Scuola di Psicologia

PSYCHOLOGICAL SCIENCE - SCIENZE PSICOLOGICHE
