- Details about the Call, selection and application procedures>
another meeting is set for March 4th

ERASMUS+ MOBILITY FOR STUDIES is a programme in the field of education, promoted and financed by the European Commission. It gives to students enrolled in european universities joining the programme, the possibility **to study in a different European country**.

You will be able to:

- ✓ Spend one or two semesters abroad next academic year
- ✓ Take courses and sit exams
- ✓ Only in a **very few cases**: work on a thesis/Internship, under the condition to take courses and sit exams
- ✓ obtain recognition of the activities carried out during the mobility period

The Erasmus scholarship is a **contribution offered by the EU to your costs for subsistence** related to the mobility period.
It is not a full funding of your expenses!

Grants are defined depending on the geographic area of the chosen destination country.

Very important

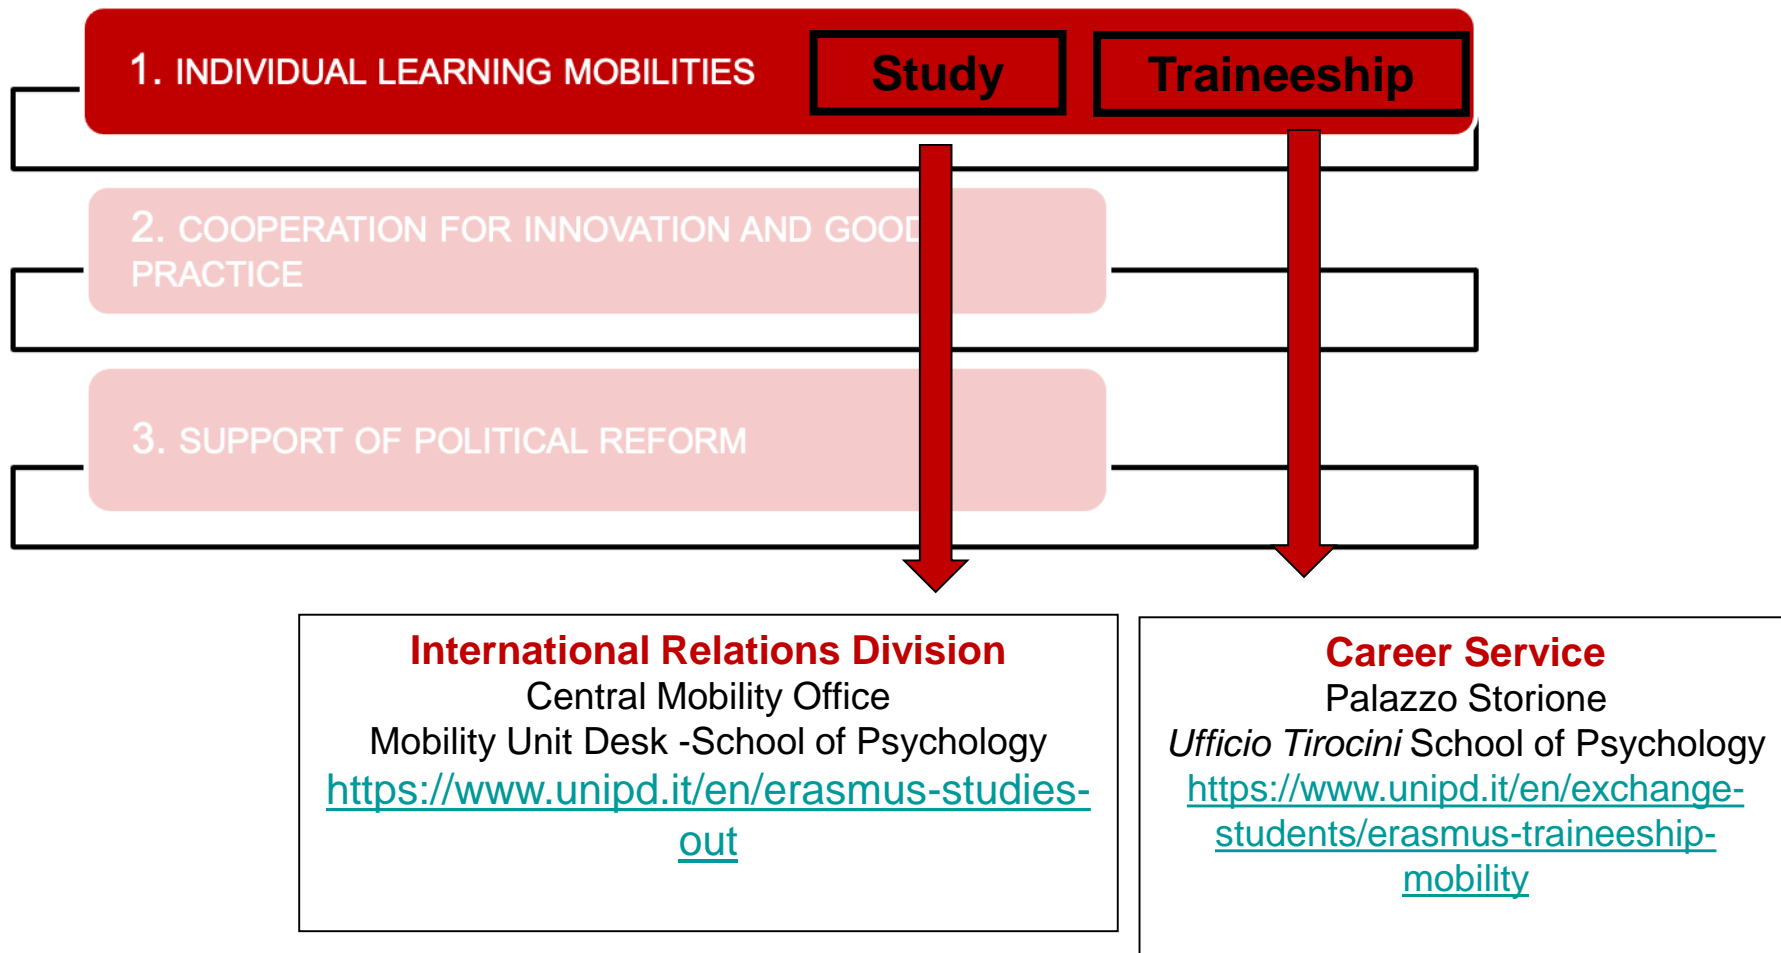

- ✓ You won't pay fees at the host University
- ✓ You still pay Unipd fees

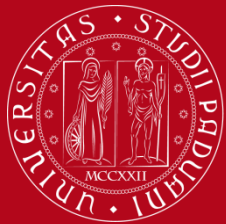

At the end of the mobility period a **full recognition** of all activities is guaranteed, on the condition that awarded students achieve successful results for the exams previously approved in the Erasmus study plan (=Learning Agreement).

All students that successfully gain an Erasmus place must pay their **fees** to the Università di Padova even during their period of mobility and they are **exempt from paying the fees of the partner university** (apart from some contributions for services that are sometimes required, particularly in Germany).

Students **will continue to benefit from any study scholarships** from which they benefit, as long as they are not financed with European funds.

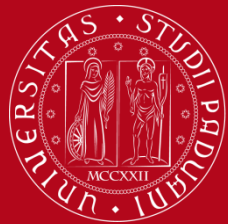

In the frame of the mobility for students

IMPORTANT NOTES:

- ✓ If you submit your application in a certain academic year you'll leave on the following academic year
- ✓ Once you're awarded with a scholarship, you decide when to leave!
- ✓ You can apply even if you have already had a previous Erasmus Mobility (LLP/ERASMUS , Erasmus+ Studies **or** Traineeship, ERASMUS MUNDUS Action1)

Tales from the Unexpected: Erasmus pioneers during the pandemic

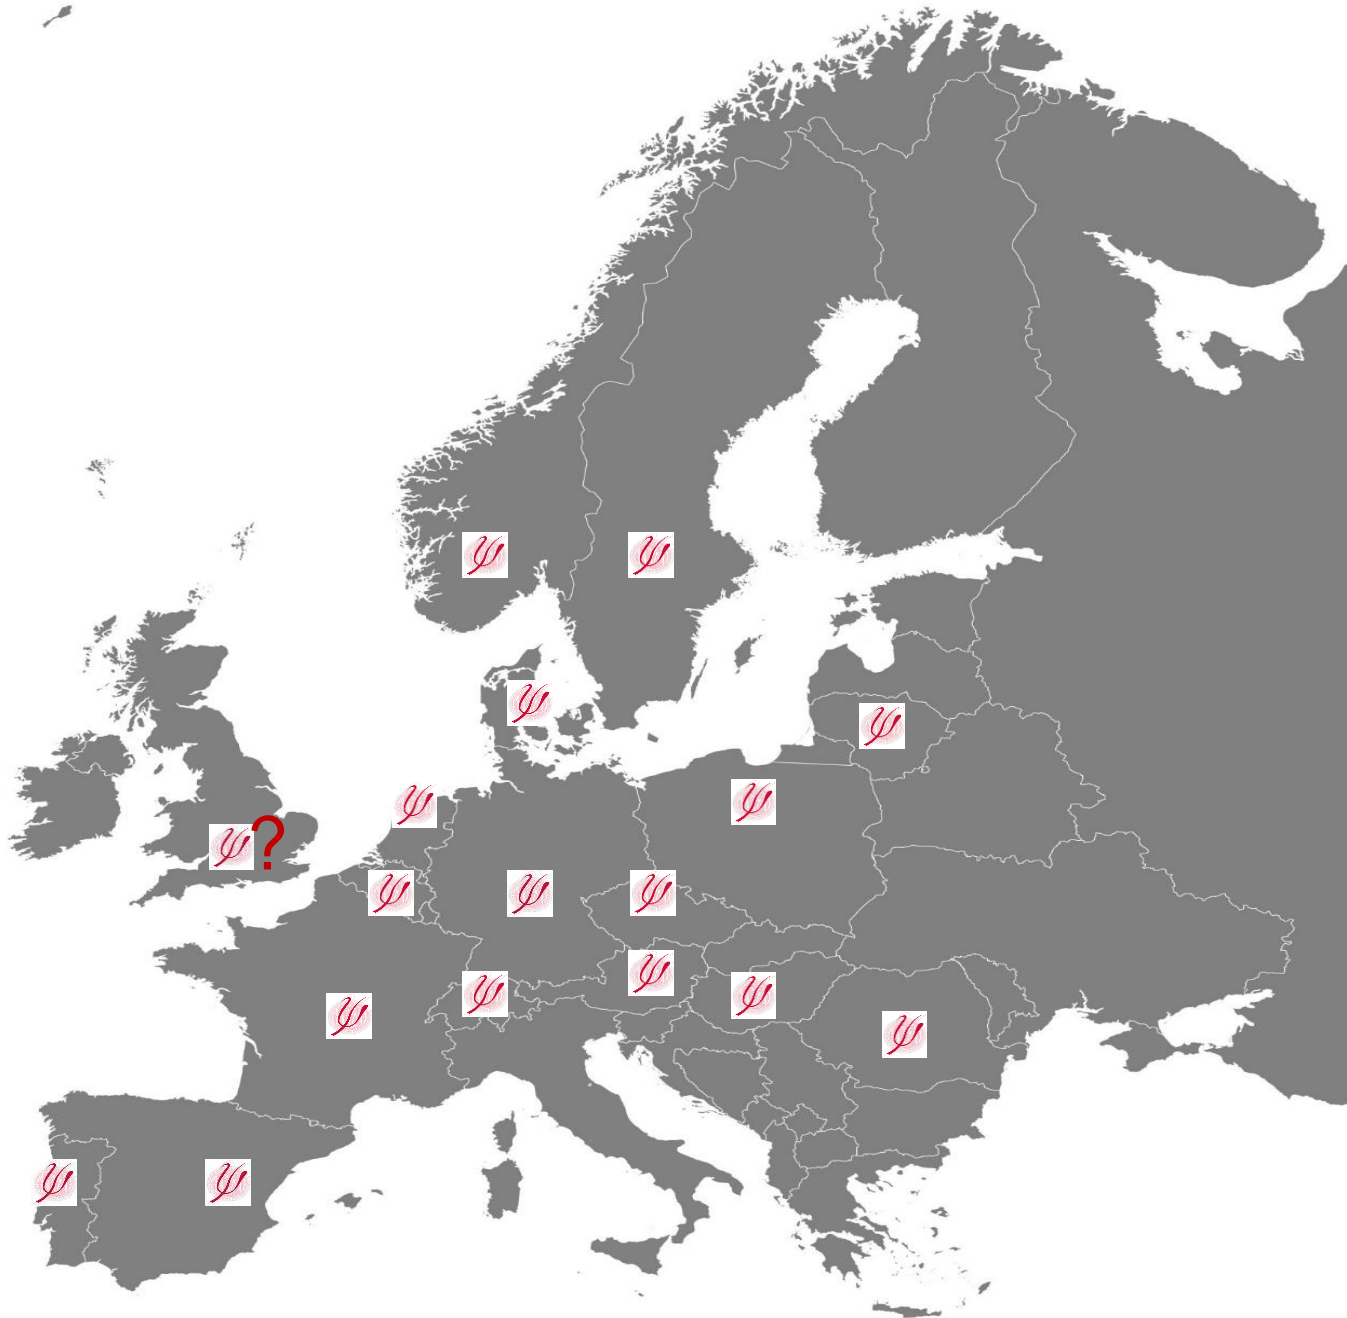

«Even though this Erasmus semester was unconventional to say the least, I wouldn't change it»

«I would say, it was an experience I won't forget. Anyways none of us can forget what happened in the world in 2020»

So... when to leave?

Applicants on:

- Their 3° Ba year may leave only in the **second semester of their 1° year of Master**, assuming that they will access one of the Ma held at our School of Psychology
- Their 1° Ma year usually choose to leave in the **second semester of their 2° year of Master** in order to work on their thesis/Internship during the second semester (in Padova or abroad)

So... how to choose the right destination?

Students of the School of Psychology can choose two destinations (but they will win for one only!) and listing them in order of preference.

Make a «smart» choice. This means: choosing among the agreements which are suitable for your degree course.

The first reason for your choice must be the similarity with your study plan or «manifesto degli studi»

psicologia.unipd.it/manifesti-degli-studi

You can then have secondary motivations, such as:
International ranking of a certain university, interest for that University or country or city, family reasons.

Every motivation is equally valid but the most important thing is to find similar courses units abroad.

The complete list with 2021/2022 agreements will be published here:
