Students of first-cycle degree courses could choose among all course units worth optional credits - not only from the suite of courses offered by the School of Psychology - belonging to first-cycle degree courses which are currently held.

If students select course units belonging to first-cycle degree courses different from those of the School of Psychology, the Study Plan will not be automatically accepted, instead it should be approved. Please note that a Study Plan including the same course both in Italian and in English (i.e. "Social Psychology and Communication" and "Psicologia Sociale") will not be accepted.
